GRIFFIN ANIMATION STUDIOS

About Griffin Animation Studios

Griffin Animation Studios was born from our sister company Griffin Animation Academy. Founders of both the academy and studio wanted to create a post-production studio that meets Griffin Animation Academy's high-quality animation standards- thus, the studio was born!

We are a group that is growing and rapidly expanding our teams. We are nimble, creative, technical and have a unique way of doing things. We aren't set up like a typical studio either - we put our people first and work in teams led by a Creative Supervisor whose role is to pass their expertise, time, knowledge and skill throughout their team, to not only produce epic shots but to help animators push through professional challenges so they can grow.

We are all about 'levelling up.' We ask why and look for ways to do it differently, ways to do it better, so we can be that 'studio with the best animators in the world.'

If you're ready to work in a professional environment where you learn more, level up and become a master, keep reading.

The Role

Creative Supervisor

This is a cross-channel role; you will be both the Alpha Leader of your animation pack and guide junior and mid-level animators in the academy. In other studios, as a supervisor, you would spend much of your time in meetings and delegating information - at Griffin Animation Studios, we want your talent and expertise. Mostly, we want the leader in you. Your role, should you choose to accept it, is to work with your animation team as closely as possible, developing

them, assisting them, passing the torch, guiding them and helping them do what they need to create '***the best shot they've ever worked on,***' every time.

Your team will also have the benefit of an Apprentice Supervisor (a Senior animator) who will be your Apprentice Supervisor - there to assist you and also grow in their role.

You won't be in endless meetings; instead, we want to focus your talents and expertise on leading your team with Griffin Animation Studios and mentoring the next generation of animators with Griffin Animation Academy.
